

Wednesday 15th February, 2017

**Outline: CICASP Seminar 49
PWS Symposium Practice Talks**

This block of CICASP Seminars gives students the opportunity to practise their talk for the upcoming 7th International Symposium on Primatology and Wildlife Science (2nd-4th March). On Wednesday we saw the following presentations:

Shintaro

"Evaluating reproductive consequences in wild bonobos."

Himani

"Elucidating the social system and reproductive strategies of Central Himalayan langurs (*Semnopithecus schistaceus*) in high altitude forests of Western Himalayas India."

Nelson

"Saliva as a non-invasive tool for measuring acute stress in Japanese macaques."

CICASP faculty and other students gave helpful feedback, comments and pointers. Members of the audience benefited from both giving and hearing feedback.

Wednesday 22nd February, 2017

**Outline: CICASP Seminar 50
PWS Symposium Practice Talks**

Next week we will have another three speakers giving practise talks in preparation for the upcoming 7th International Symposium on Primatology and Wildlife Science.

Our speaker line-up is as follows:

Duncan

"How do chimpanzees discriminate primate species based on faces?"

Gao

"Learning the rules of the rock–paper–scissors game: Comparison between chimpanzees and human children ."

Yugo

"Preliminary research about sour taste perception of Sumatran orangutan (*Pongo abelii*) in Indonesia."
