

SUMMARY OF PREVIOUS SEMINAR

CICASP Seminar in Science Communication #165

🌀 Lecture 3 of *International Primatology Lectures on Past, Present and Future Perspectives of the Field* 🌀

I am NOT a primatologist and other incoherent ramblings

By Dr. Ramesh Boonratana

5:00 PM–6:00 PM, Wednesday, August 25, 2021

(on Zoom and live-streamed on YouTube)

In the last seminar, Dr. Ramesh Boonratana talked about his journey into primatology and away from it to let us reflect and think creatively about our own chosen paths, he shared the valuable lessons he learned that we can avoid and will provide a sounding board for budding primatologists.

OUTLINE OF UPCOMING SEMINAR

CICASP Seminar in Science Communication #166

🌀 Lecture 4 of *International Primatology Lectures on Past, Present and Future Perspectives of the Field* 🌀

How the Social Brain Evolved

By Prof. Robin Dunbar

(Department of Experimental Psychology, University of Oxford, UK)

5:00–6:00 PM (JST/GMT+9), Wednesday, September 8, 2021

To be held on **Zoom** and live-streamed on **YouTube**

(Students are encouraged to join the lecture on Zoom)

This year, CICASP is organizing a series of guest lectures by leading primatologists from across the world, who will share their rich perspectives on the development of primatology in connection to their life's works. Each lecture will be followed by a Q&A with the audience (= you!). We hope these events will spawn lively discussions and deep reflections on where the discipline should be headed next, just in time for the 75th Anniversary of Japanese primatology in 2023.

Prof. Robin Dunbar will be the guest speaker of the next lecture in the series. Prof. Dunbar contributed important ideas in evolutionary psychology, such as the Social Brain Hypothesis and Dunbar's number. In this lecture, he will explain the origin and story of these ideas.

Everyone affiliated with PRI/PWS/WRC is welcome to join, so bring your friends and colleagues!

2021年9月8日（水） 17時より (on Zoom, YouTube live)
(アクセスの詳細は案内メールを見てください)。

🌀 第4回 国際霊長類学セミナー「フィールドの過去・現在、そして未来の展望」🌀

How the Social Brain Evolved

Robin Dunbar 教授

5:00–6:00 PM (JST/GMT+9), 2021年9月8日（水）

講義はZoomを通して行われ、YouTube でライブストリーミング配信されます。

今年度のCICASPでは、世界の第一線で活躍する霊長類学者を迎えた講演会を開催します。ゲストの先生には霊長類学の発展に関する豊かな視点をライフワークと関連づけてお話しいただきます。各講演の後には、聴衆の皆さんとの質疑応答が行われます。日本の霊長類学が75周年を迎える2023年に向けて、これらのイベントが活発な議論を生み、この学問が次に向かうべき方向性について深く考えるきっかけとなることを願っています。

次回のゲストスピーカーは、Robin Dunbar教授です。Dunbar教授は社会脳仮説やダンバー数のような重要なアイデアをもって進化心理学の発展に貢献してきました。この講義では、彼はこれらのアイデアの起源や物語について説明する予定です。

PRI/PWS/WRCに関わる方ならどなたでも参加できますので、ぜひお友達や同僚をお誘い合わせの上ご参加ください。
