

## CICASP Seminar in Science Communication: Summary & Outline

Wednesday 7<sup>th</sup> November, 2018

**Summary: CICASP Seminar #90**

### **Perspectives in Sci-Comm**

In this seminar we had a presentation by a visiting lecturer, Dr. Susumu Tomiya, who talked about issues in science communication using his own experiences and examples from the media. The students who attended this session learned tips to explain their research to various target audiences, and got insights to get their research to reach the general public.
