**Outline: CICASP Seminar 74  
Student Practice Presentations for PWS International Symposium**

At this seminar, Yuri gave her practice presentation in preparation for the 9th International PWS Symposium. The audience, fellow students, and also CICASP faculty provided helpful feedback, comments and pointers. As the sole presenter, Yuri benefited from plenty of useful, constructive suggestions. She also received compliments on her talk and slides.

Thursday 1st March, 2018

**Outline: CICASP Seminar 75  
2nd Joint CICASP Seminar: Student Practice Presentations for PWS  
International Symposium**

This will be the second joint CICASP seminar in Science communication with both PRI and WRC students participating. Students will join in the seminar via teleconferencing from two different locations: from PRI and WRC. At this seminar, six students will give practice presentations in preparation for the 9th International PWS Symposium. This will be an extended length seminar. This is to ensure that each presenter has sufficient time both to present and to receive helpful constructive feedback from both the student audience and CICASP Team present. Each presenter will have a half-hour slot. Last year, we held a series of CICASP Seminars for this purpose, and they proved popular, useful, and enjoyable.
