

## SUMMARY OF PREVIOUS SEMINAR

### **CICASP Seminar in Science Communication #135**

*Foundations of Primatology & Wildlife Science: Revisiting Classic Papers (Part 2)*  
5PM–, Wednesday, July 8, 2020

In our previous seminar, PRI and WRC students presented classic, groundbreaking studies in primatology and wildlife science. The presenters analyzed the significance of the studies and their contributions to the respective fields. Each presentation was followed by a Q&A where students discussed the impacts of the selected papers from a broader perspective.

## OUTLINE OF UPCOMING SEMINAR

### **CICASP Seminar in Science Communication #136**

*MSc. Thesis Practice Presentation Extravaganza!*

**4PM–**, Wednesday, July 15, 2020 (on Zoom; see email announcements for details)

Presenting research findings in an impactful and concise manner is one of the challenging aspects of academic science communication for all students. The upcoming CICASP seminar will be dedicated to master's thesis practice presentations. In this seminar, WRC and PRI students Annegret, Hanling, and Zhihong will practice their presentations.

Join us in this seminar to support and give your feedback to the presenting students and to learn more about their studies. This will also be a good opportunity to learn the tips for thesis presentations. Please note that this seminar will begin at 4PM and will continue for two hours.

### ***Call for Practice Presenters!***

If you are giving a presentation at an academic conference this summer and want to practice it, we may be able to offer you a spot during a CICASP seminar in July–August. Please let us know when and what you want to get our feedback on. You can reach the seminar organizers at: [cicasp\\_seminar@mail2.adm.kyoto-u.ac.jp](mailto:cicasp_seminar@mail2.adm.kyoto-u.ac.jp)
