

SUMMARY OF PREVIOUS SEMINAR

CICASP Seminar in Science Communication #160

Lecture 2 of International Primatology Lectures on Past, Present and Future Perspectives of the Field

BUDONGO: The Making of a Field Station

By Prof. Vernon Reynolds

Wednesday, July 7, 2021

This year, CICASP is organizing a series of guest lectures by leading primatologists from across the world, who will share their rich perspectives on the development of primatology in connection to their life's works. Each lecture will be followed by a Q&A with the audience (= you!). We hope these events will spawn lively discussions and deep reflections on where the discipline should be headed next, just in time for the 75th Anniversary of Japanese primatology in 2023.

Prof. Vernon Reynolds was the guest speaker of the latest lecture in the series. Together with many others, Prof. Reynolds had set up a field station in Uganda in 1990. In his talk, he discussed how that came about, and some of the people who made it the success it is today.

For more information on the field site, please take a look at www.budongo.org.
