

SUMMARY OF PREVIOUS SEMINAR

CICASP Seminar in Science Communication #163

Part 2 of PRI's most misunderstood fields

5:00 PM–6:00 PM, Wednesday, July 28, 2021 (on Zoom)

In the last CICASP seminar, we explored how to break the stereotypes in our own fields. Participants identified the difficulties in understanding scientific fields by attempting to explain the mission of some unfamiliar fields. We discussed how to explain our field in a digestible way. Participants also practiced explaining the mission and current development of their field to people from different fields.

OUTLINE OF UPCOMING SEMINAR

CICASP Seminar in Science Communication #164

Practice Session for the HIRAKU 3MT Competition

5:00 PM–, Wednesday, August 18, 2021

To be held on Zoom (see email announcements for access details)

In July, we have introduced the [HIRAKU 3 Minute-Thesis Competition](#). Some of you may have already submitted the entry form. Before the deadline for video upload, we will hold a practice session for the competition participants next week. If you would like to share your talk for the competition, hear comments and suggestions from others, please let us know by 10:00 AM on 8/17 (Tuesday, cicasp_seminar@mail2.adm.kyoto-u.ac.jp). You do not have to prepare a well-polished talk or video. We are happy to accept preliminary video recordings or 3-minute live presentations (if videos are not ready yet).

People who will not participate in the competition are also welcome to join, whether you are thinking about improving presentation skills through observation and discussion or would like to help the participants to improve their talks.

2021年8月18日(水) 17時より (on Zoom)

(アクセスの詳細は案内メールを見てください)。

7月に、[HIRAKU 3 Minute-Thesis Competition](#) についてご紹介しました。すでに何人かの方はエントリーフォームを提出し終えたかもしれませんが。ビデオ審査の提出締め切りの前に、我々は大会参加者向けの練習会を来週開催します。もし大会に向けて自分のトークを皆に共有し、他の人からのコメントや提案を聞きたい場合は、8/17(火)の午前10時までには我々にお知らせください(cicasp_seminar@mail2.adm.kyoto-u.ac.jp)。よく練ったトークやビデオを準備する必要はありません。我々は準備段階のビデオや3分間のプレゼンテーションを喜んで受け入れます(もしビデオがまだ用意できていないとしても)。

この大会に参加する予定のない人も、聴講やディスカッションを通して自身のプレゼンテーションの技術を向上させたい、もしくは参加予定者のトークをよりよいものにするための助けとなりたいと思うならば、ぜひご参加ください。
