

**Research Activity Report**  
**Supported by “Leading Graduate Program in Primatology and Wildlife Science”**  
(Please be sure to submit this report after the trip that supported by PWS.)

2017. 5, 23	
<b>Affiliation/Position</b>	Faculty of Science / M1
<b>Name</b>	Taku Ohtsubo

<b>1. Country/location of visit</b>
Japan, Yakushima
<b>2. Research project</b>
Study on Yakuzaru
<b>3. Date (departing from/returning to Japan)</b>
2017. 5. 13 – 2014. 5. 19 (7days)
<b>4. Main host researcher and affiliation</b>
Dr. Hanya, Professor at PWS house of Yakushima
<b>5. Progress and results of your research/activity</b> (You can attach extra pages if needed)
Please insert one or more pictures (to be publicly released). Below each picture, please provide a brief description.
<p style="color: red;">During this visit, I conducted research on Yakuzaru(Japanese macaques).  I used this opportunity to achieve how many monkeys live in this island and distribution of monkeys.</p> <div style="text-align: center;">  </div> <p style="text-align: right; color: red;">(Monkeys in Seibu rindo)</p> <p style="color: red;">Through this experience, I have developed a clear vision on how to cope with Yakuzaru endangerous, which will be of great help in the future conservation of Yakuzaru.  I am currently working on a poster presentation based on these results for The 6<sup>th</sup> International Seminar on Biodiversity and Evolution: New Methodology for Wildlife Science.</p>
<b>6. Others</b> Nothing
