

Research Activity Report
Supported by “Leading Graduate Program in Primatology and Wildlife Science”
 (Please be sure to submit this report after the trip that supported by PWS.)

	2019. 07, 24
Affiliation/Position	Wildlife Research Center/M1
Name	Tomoe Torii

1. Country/location of visit
Japan, Sasagamine
2. Research project
Basic Skills for Field Work non snow season
3. Date (departing from/returning to Japan)
2019.06.28 – 2019.07.01 (4 days)
4. Main host researcher and affiliation
Sasabamine hutte, Prof. Koshima
5. Progress and results of your research/activity (You can attach extra pages if needed)
Please insert one or more pictures (to be publicly released). Below each picture, please provide a brief description.
<p>During this visit, I learned how to observe animals in the field. Also, I had never climbed mountain in bad weather, so I learned how to do and what I need in field work in bad weather. Through this experience, I have developed abilities to cope with bad condition in the field and to observe animals in the wild, which will be of great help in my future research.</p> <div style="display: flex; justify-content: space-around;"> <div style="text-align: center;">  <p>monkeys in the forest</p> </div> <div style="text-align: center;">  <p>cicada in the forest</p> </div> </div> <div style="text-align: center; margin-top: 20px;">  <p>Stag beetle</p> </div>
