I participated in the Marunouchi Kids’ Jamboree 2019. In this event, I made a workshop and draw a stamp board to collect stamps in each sections of the room. In the workshop, I introduced a life of feral horses to children using quiz and some work. I realized that the participants had more knowledge on wild animals and horses than I’d expected, so I should have included more difficult and intellectual stories not to make them bored. I hope this experience would improve the lecture for children in the future.
