

**Research Activity Report**  
**Supported by “Leading Graduate Program in Primatology and Wildlife Science”**  
 (Please be sure to submit this report after the trip that supported by PWS.)

	2019. 08 19
<b>Affiliation/Position</b>	Wildlife Research Center/MI
<b>Name</b>	Huiyuan Qi

<b>1. Country/location of visit</b>
Japan, Tokyo
<b>2. Research project</b>
Kids jamboree
<b>3. Date (departing from/returning to Japan)</b>
2019. 08. 12 – 2019.08. 15 (4 days)
<b>4. Main host researcher and affiliation</b>
Tokyo International Forum, kids jamboree
<b>5. Progress and results of your research/activity</b> (You can attach extra pages if needed)
Please insert one or more pictures (to be publicly released). Below each picture, please provide a brief description.
<p>In kids jamboree, I mainly had duty in the booth of ‘Chinese Animals’. I really enjoyed myself and be honored to share the knowledge of Chinese animals and related culture with children. During the activity, we encountered with more than 300 children.</p> <p>We performed puppet shows about twelve Earthly Branches which attracted lots of children’s attention and explained the background of Chinese hieroglyph and let children shadow the characters.</p> <p>I think children who joined in our booth had fun and had a much deeper understanding of China which is also meaning for us. I encountered with so many children who love animals and painting which are also my love even now. It is like that I met with little myself, which is moving and reminded my beginner’s mind.</p>
