

Research Activity Report
Supported by “Leading Graduate Program in Primatology and Wildlife Science”
 (Please be sure to submit this report after the trip that supported by PWS.)

	2019. August, 20
Affiliation/Position	Primate Research Institute/M1
Name	Mikuho Yokoyama

1. Country/location of visit	Tokyo, TOKYO INTERNATIONAL FORUM
2. Research project	Kids Jamboree
3. Date (departing from/returning to Japan)	2019. August. 12 – 2019. August. 15 (4days)
4. Main host researcher and affiliation	
5. Progress and results of your research/activity (You can attach extra pages if needed)	<p>Please insert one or more pictures (to be publicly released). Below each picture, please provide a brief description.</p> <p>During this visit, I conducted outreach activities for preschool children and elementary school students to let them know about wildlife animals. We, PRI members, made models of primate bodies and posters about primate locomotion. Because various kinds of people from preschool children to adults visited our booth, it was difficult to change the contents of explanations adjusting the level of each visitor. Some of them said that they wanted to visit zoo to observe how primates were walking after our explanations, so I think our purpose was achieved on the whole. Also, because all members other than me were foreigners, all of discussions were conducted in English. It was a good opportunity to improve my English skill. I hope to join outreach activities in the future.</p>
	
	The booth provided by PRI
6. Others	I would like to thank PWS for supporting this event.
